Aux Tanks!

Hello Linda,

One Aux Tank needs to be pro-sealed, alodined, primed and painted. The second tank (for testing) only needs to be prosealed.

Please call me anytime if clarification is needed.

Thank you,

Michael Lee

Subject: RE: Aux tank pressure test

Getting two tanks done by the end of the month is going to be difficult, to say the least, but we'll put all our efforts on them and see what we can do.

Mike, do you need your unit painted?

David D, pls let me know when all boms/routes are updated

Thx

L

Subject: Aux tank pressure test

All,

We are going to have to repeat the aux tank pressure test. (Not the one we do for regular production). In order to accomplish this, we will need a tank made to mike's latest drawings, and of course the corresponding conformity and material certs etc.

As soon as we get the tank, Dan should be able to accomplish the test pretty quickly.

Thanks
